## FEATURES

### Highlights of the Latest Hi-Tech Tensile Testing Machine

- PC based system and ease of operation using computer keyboard and mouse.
- Servo Motor, Hi-Grade Branded Gear Box, Servo Drive
- Hi-Quality Branded Ball Screw and accessories
- Option of Manual or Pneumatic Grip
- Test Reports generation for records and email
- Different Standard can be selected
- Average of three test and result accordingly

Conversion

- Standard Ball Screw and Side Bars of Well-known Brand
- Barded PC (Touch Screen PC) with Keyboard and Mouse
- Use to measure Strength of Rubber, Plastics, Adhesive, Bond, Adhesive Strength, Harnessing, etc.
- Higher capacity machine can also be used for testing Rubber Bonding strength and other applications
- ASTM, DIN, and other standard related Reports
- Customized Reports and tests
- Easy to install and maintenance free
- Grip as per the product in test
- Hydraulic Press can be converted to testing machine with same software features
- Fully programmable for speed, acceleration, return speed, test length, and many other parameters
- Unlimited Data records
- Report generation after the test automatically
- Live graph while test is ON
- Available economic model as well with just peak hold indicator and load cell kit.
- Also available simple machine without servo motor and drive, PC, Software, having lead screw and manual operation for cost effective testing machine
- Available from 10 kg to 5000 kg capacities in different models
